

## **UPPER VALLEY RIVER SUBCOMMITTEE**

MEETING MINUTES (UNAPPROVED)  
Monday, January 23, 2012

Members Present: David Kotz, Steve Stocking, Jim Kennedy, Marc White (Chair)

Also Present: Rachel Ruppel, CRJC/UVLSRPC

A quorum was not present for the meeting.

In accordance with the permit review procedures, the members present reviewed the wetlands permit application for the River Road reconstruction in Lyme, as well as a request for more information from the Wetlands Bureau. Issues raised include: 1) whether other options for the road reconstruction have already been dismissed ; 2) planting wetland obligate species on a dry slope; 3) lack of detail about fertilizer application; 4) concern over the wildlife value of the plantings. Jim Kennedy offered to follow up with NHDES with these questions, and Rachel Ruppel will prepare a comment letter, stipulating that these are the opinions of the members present, not of the full Subcommittee.
